The Complete VC Package Framework

This roadmap outlines the complete set of investor materials required for a successful fundraising round. The framework is organized into three tiers based on priority and timing.

Target Raise: $5-15M Seed/Series A | **Valuation:** $25-50M Pre-Money | **Timeline:** 12 weeks from start to close

Tier 1: Critical Materials (Must Have for First Meeting)

These materials make or break the first impression. They must be polished and ready before any investor outreach.

Material	Purpose	Status	Impact
1. Interactive Demo	Show, don't tell - let VCs experience the product	Complete	⭐⭐⭐⭐⭐
2. Pitch Deck (10-12 slides)	Tell the compelling story of the opportunity	Complete	⭐⭐⭐⭐⭐
3. Executive Summary	One-pager to get the initial meeting	Complete	⭐⭐⭐⭐⭐
4. Financial Model	Show the magnitude of the opportunity	Complete	⭐⭐⭐⭐⭐
5. Demo Video (2-3 min)	Shareable asset for broader distribution	Q2 2026	⭐⭐⭐⭐

Tier 2: High Value Materials (Due Diligence Ready)

Materials VCs request after expressing initial interest. Having these ready demonstrates professionalism and preparation.

Material	Purpose	Timeline	Impact
6. Technical Architecture	Prove the technology works at scale	Q2 2026	⭐⭐⭐⭐
7. Competitive Analysis	Show clear differentiation and moat	Complete	⭐⭐⭐⭐
8. Product Roadmap	Demonstrate vision and execution plan	Complete	⭐⭐⭐⭐
9. Go-to-Market Strategy	Show how you'll acquire customers	Complete	⭐⭐⭐⭐
10. Team Bios/Advisors	Prove you have the expertise to build this	Q2 2026	⭐⭐⭐⭐

Tier 3: Differentiators (Stand Out from Competition)

Materials that show exceptional professionalism and separate you from other startups competing for capital.

Material	Purpose	Timeline	Impact
11. Risk Mitigation Matrix	Address concerns proactively	Q3 2026	⭐⭐⭐
12. Customer Validation	Show market demand with data	Q3 2026	⭐⭐⭐⭐
13. Regulatory Compliance Guide	Reduce perceived risk in healthcare	Q3 2026	⭐⭐⭐
14. Exit Strategy Analysis	Show ROI potential for investors	Q3 2026	⭐⭐⭐
15. Investor Update Template	Show ongoing communication commitment	Q3 2026	⭐⭐⭐

Key Metrics That VCs Want to See

Product Metrics

- ☐ Monthly Active Users (clinicians)
- ☐ Monthly Active Patients
- ☐ Average Session Duration
- ☐ Feature Adoption Rates
- ☐ Net Promoter Score (NPS)

Business Metrics

- ☐ Monthly Recurring Revenue (MRR)
- ☐ Annual Contract Value (ACV)
- ☐ Customer Acquisition Cost (CAC)
- ☐ Lifetime Value (LTV)
- ☐ LTV:CAC Ratio (target >3:1)
- ☐ Churn Rate (target <5% annually)
- ☐ Gross Margin (target >80%)

Safety Metrics (Your Moat)

> **Core Differentiators:** T2 Alert Detection Rate (99.2%) | False Positive Rate (<10%) | Average Response Time (4 min) | Clinician Time Saved (5.2 hrs/week) | Patient Outcomes Improvement

Critical Questions to Prepare For

1. "How is this different from Woebot/Ginger?"

> They're consumer apps. We're clinician-supervised with safety protocols and designed for healthcare workflows.

2. "What if the AI makes a mistake?"

> Every AI insight is a 'draft' requiring clinician approval. Our CSP-002 protocol ensures human oversight on all decisions.

3. "How do you handle data privacy?"

> HIPAA, SOC 2, end-to-end encryption. We exceed healthcare industry standards for data protection.

4. "What's your go-to-market strategy?"

> Start with health systems for validation, expand through EHR partnerships (Epic, Cerner), then self-serve for small practices.

5. "How do you acquire customers?"

> Direct sales + channel partners + medical reps. CAC is $X, LTV is $Y, giving us Z-month payback period.

6. "What's the path to $100M ARR?"

> X clinicians × $Y/month × 12 months = $Z. Here's the detailed math in our financial model...

7. "How big is this market really?"

> $17B US mental health software market, growing 18% annually. Our addressable segment is $2B today.

8. "Who are your competitors?"

> Show competitive matrix. We're the only ones with clinician-supervised AI + safety protocols.

9. "Why is your team the right one to build this?"

> Mix of healthcare domain expertise, AI/ML technical skills, and enterprise SaaS go-to-market experience.

10. "What milestones will you hit with this funding?"

> Specific, measurable goals for next 12-18 months including revenue targets, customer acquisitions, and product milestones.

The Data Room Checklist

Create a secure folder (Google Drive, Dropbox, or DocSend) with the following organized sections:

Company Documents

- ☐ Certificate of Incorporation
- ☐ Cap Table (current and post-money)
- ☐ Bylaws
- ☐ IP Assignment Agreements
- ☐ Employment Agreements

Financial Documents

- ☐ Financial Model (Excel)
- ☐ Historical Financials
- ☐ Burn Rate Analysis
- ☐ Unit Economics Breakdown
- ☐ 3-Year Projections

Market Research

- ☐ Competitive Analysis
- ☐ Market Size Research
- ☐ Customer Interviews Summary
- ☐ Industry Reports

Product Documents

- ☐ Technical Architecture
- ☐ Product Roadmap
- ☐ User Research Summary
- ☐ Pilot Results/Case Studies
- ☐ Demo Video

Legal/Compliance

- ☐ HIPAA Compliance Documentation
- ☐ Privacy Policy
- ☐ Terms of Service
- ☐ Security Audit Results
- ☐ Insurance Policies

Investor Target List Strategy

Tier 1: Healthcare-Focused VCs (Highest Probability)

Andreessen Horowitz (Bio fund) | GV (Google Ventures) | Khosla Ventures | Venrock | Bessemer Venture Partners | 8VC | Rock Health | Lux Capital

Tier 2: AI/ML-Focused VCs

Sequoia Capital | Greylock Partners | Index Ventures | Accel | Battery Ventures

Tier 3: Generalist VCs (Series A+)

Benchmark | First Round Capital | Lightspeed Venture Partners | Founders Fund

Tier 4: Strategic Investors

Health system venture arms | EHR company investments (Epic, Cerner) | Pharma company ventures

Timeline to Funding (12 Weeks)

Week 1-2 — **Material Preparation**
Finalize pitch deck, create financial model, record demo video, write executive summary, set up data room

Week 3-4 — **Outreach Phase**
Research target VCs, get warm intros, send initial emails, schedule first meetings

Week 5-8 — **Meeting Phase**
20-30 first meetings, refine pitch based on feedback, follow-ups and additional materials, get term sheets

Week 9-12 — **Due Diligence & Close**
Full due diligence process, partner meetings, negotiate terms, legal documentation, close the round

Success Metrics for the Raise

Meeting Metrics: Target 30 first meetings | 40% conversion to second meeting (12 meetings) | 25% conversion to term sheet (3 term sheets) | 33% close rate (1 closed round)

Pitch Metrics: Deck open rate >70% | Demo click-through rate >50% | Time spent on demo >3 minutes

The Blow-Away Factor Checklist

What makes VCs say "we HAVE to invest in this":

Interactive Demo
They can play with it, experience the value firsthand

Clear ROI
$1.6M savings for 100 clinicians - quantified value

Safety Moat
99.2% detection rate, clinician-supervised AI

Massive Market
$17B TAM, 18% growth - huge opportunity

Defensible Tech
AI + safety protocols + compliance

Strong Team
Healthcare + AI + SaaS experience

Next Immediate Actions

Timeline	Action	Status	Owner
Today	Finalize interactive demo	Complete	Product Team
Today	Create pitch deck	Complete	Founder
Today	Create executive summary	Complete	Founder
Today	Create financial model	Complete	Finance
Week 1	Record demo video (2-3 minutes)	Q2 2026	Product Team
Week 1	Write competitive analysis	Complete	Strategy
Week 1	Create product roadmap	Complete	Product Team
Week 2	Set up data room	Q2 2026	Operations
Week 3	Start investor outreach	Q2 2026	Founder
Week 3	Schedule first meetings	Q2 2026	Founder

Conclusion

You have the **best interactive demo** in the mental health AI space. Now you need to:

Tell the story (pitch deck)
Show the numbers (financial model)
Get the meeting (executive summary)
Close the deal (data room + Q&A prep)

The combination of your interactive demo + professional materials will be unstoppable.
